EDUCATION

Michigan State University – East Lansing, MI

GPA: 3.865, Dean's List

Bachelor of Science, Computer Science (Honors College), Minor in Entrepreneurship, Mathematics

May 2026

Harvard Scholar | GHC '23 | 7 Hackathon Winner | Google WTM Ambassador | Rewriting the Code | Google Cloud Digital Leader

Relevant Coursework: Operating Systems, Object Oriented Design, Data Structures and Algorithms, Machine Learning, Software Performance Engineering, Biometrics and Pattern Recognition, Computer Networks, Computer Organisation.

Cornell University

August 2025

Machine Learning Foundations e-Certificate, Break Through Tech

Relevant Coursework: Data Structures, Data Analysis, Training Classification and Regression Models, Natural Language Modelling

EXPERIENCE

ASAPP x Break Through Tech – Remote (East Lansing, MI)

September 2025 – December 2025

AI Engineer Intern (Fellowship)

- Led a team of **5** to build an AI-powered platform to extract structured data from **10,000+** customer service conversations using **Next.js, Python, FastAPI, Gemini API, and SQLite**, serving as Technical PM and driving end-to-end delivery.
- Demoed the product to **100+** AI fellows and industry leaders, helping improve the data team's productivity by **5%**.

Nucor Corporation – Dallas, TX

May 2025 – August 2025

Software Automation Intern

- Automated **Oracle EBS** test cases with **Tosca, Azure DevOps**, scaling testing across **10+** steel divisions and **5+** environments; built **RAG** chatbot (**Copilot Studio, SharePoint, Teams**), reducing doc search from **minutes to seconds**.
- Developed **Baymax**, an **Agentic AI** safety hub (**C3.ai, Azure Event Grid, Databricks, Python, C#, SQL, REST APIs**) for **10+ steel mills** across the US, winning **1st place** at Nucor hackathon; earned **4** Automation Testing certifications.

ViaLearn – East Lansing, Michigan

March 2025 – July 2025

Full-Stack Developer

- Led a team of **4** to develop an all-in-one AI-powered productivity mobile app that auto-schedules and auto-submits assignments for students using **Flutter, Firebase, Python, Langchain, RAG, Fast API, Google Cloud Platform, Chroma DB, and OpenAI API, Agile Methodologies, Figma, and Trello**, cutting down task planning time by **30%**.

TechSmith – East Lansing, Michigan

Software Engineering Intern – Site Reliability

May 2024 – August 2024

- Iterated on capabilities and features of Cloud Native infrastructure, including **Kubernetes, Flux, and Prometheus**.
- Extended the code bases that drive cluster operations automation for **5+** services using **GitHub CI/CD, Terraform, Helm, Nginx, Traffic Managers, Docker, Go, and Azure DevOps**.
- Collaborated with **5** other Software and DevOps engineers to create and deploy an Internal Developer Portal (IDP) using **Backstage, Shell Scripting, Typescript, and RESTful APIs** to streamline the workflows of **300+** developers.

Google Developer Groups (GDG) – East Lansing, MI

October 2023 – Present

President and Cloud Student Innovator

- Selected among **16,000** applicants to be a part of an exclusive cohort of **200** student innovators by Google Cloud.
- Kickstarted MSU's GDG chapter with **415+** members and led a team of **12** leaders to host technical workshops on Google Developer tools such as **Flutter, Dart, Firebase, TensorFlow, Gemini, Big Query, and Google Cloud Platform**.

Michigan State University – College of Engineering (CSE Department) – East Lansing, MI

January 2024 – May 2025

Undergraduate Learning Assistant (ULA)

- Served as a teaching assistant for MSU's **Data Structures and Algorithms** course delivered in **Python**, supporting weekly instruction for approximately **350** students.
- Led help room sessions and debugged student code, reinforcing core concepts including **arrays, linked lists, stacks, queues, trees, hash tables, and algorithmic complexity**.
- Contributed to course curriculum development by designing and refining weekly projects and homework assignments.
- Assisted in conducting pre-exam review sessions, helping students strengthen problem-solving strategies and implementation skills.

TP Connects (Airline Industry) – Dubai, United Arab Emirates

Data Science Intern

June 2023 – August 2023

- Automated quarterly reporting using **Power BI, MySQL, AWS S3, Athena, and Datadog**, boosting analytics efficiency by 60%.
- Cleaned and visualised IATA booking/ticketing data for **Oman Air** and 100+ agencies using **Excel, Pandas, and Agile Methodologies** with data teams via **Jira**.

MSU Institute for Cyber-Enabled Research (ICER) – E. Lansing, MI

Student Technical Intern

January 2023 – August 2023

- Contributed to maintenance of the official ICER HPCC documentation by reporting over **5** bugs and errors to Program Directors by submitting merge requests to **GitLab**.
- Learned the fundamentals of **Ruby** to contribute to the ICER HPCC Contact page by developing a File Upload feature, updating documentation on Gitlab, and enhancing overall user experience.
- Powered up a supercomputer using **Raspberry Pi** and presented it at MSU's Sci-Fest 2023 to over **200** visitors.

Single Cell Analysis of Lung Cancer Cells – E. Lansing, MI

Professorial Assistant (Undergraduate Research), Xie Lab – CMSE Department

August 2022 – May 2023

- Assisted with data pre-processing and annotation of **900+** images using **Napari** for the 'Cycle GAN Single Cell Analysis' project in collaboration with Stanford University and Johnson and Johnson.
- Analyzed over **200GB** of single-cell RNA-seq data using **Cell Ranger multi** module, **R, NumPy**, and **Seurat**.
- Presented research from Dataset and Pre-processing Models Exploration for the 'Deep leArning for siNgle CEll Analysis' (DANCE) module version 2 at the MSU Mid-SURE 2023 Undergraduate Research Symposium.

PROJECTS

MoodMelody.AI – 3RD Place Winner Worldwide @ TikTok Tech Jam 2024 (\$3000 Cash Prize)

August 2024

Tech Stack: React.js, Material UI, Gemini AI API, Flask, Hugging Face, Python, AWS S3, AWS Sagemaker, Vercel, Prompt Engineering, Machine Learning, LangChain

- Spearheaded a team of **3** developers to deploy an AI web app that generates mood-based background music using **React.js, Gemini AI API**, and **Hugging Face's** open-source models for content creators to amplify online presence.

TECHNICAL SKILLS

Languages – Python (Pandas, Streamlit, NumPy), R, C, C++, C#, HTML, CSS, JavaScript, Typescript, Go, Terraform, Dart, Ruby

Framework/Tools – React.js, DOM, Next.js, Node.js, Flutter, Flask, Material UI, Tailwind CSS, Git, GitHub, Linux, Power BI, Datadog, TensorFlow, Excel, Jira, Agile Methodologies, Trello, Hugging Face, AWS Sagemaker, Vercel, RESTful APIs, Figma, Tosca, Neoload.

Databases & Cloud Services – SQL, Databricks, Fast API, MongoDB, Chroma DB, AWS Athena, AWS S3, Big Query, Google Cloud, Azure DevOps, Copilot Studio, GitHub CI/CD, Firebase, Kubernetes, Flux, Prometheus, Grafana, Shell Scripting, Nginx, Docker, Helm, Traffic Managers, Gemini AI API, OpenAI API, LangChain, Machine Learning, Prompt Engineering, RAG, Pair Programming.

AWARDS AND CERTIFICATIONS

- 1st Place Winner** – Nucor Hackathon (Agentic AI Safety Platform) 2025
- Runner-Up** – AI ATL Hackathon (HypeZone, Real-Time AI & Streaming Track for Sports) 2025
- AWS All Builders Welcome Grant Recipient** (AWS re:Invent) 2025
- Harvard WECODE Scholar** 2025
- Cole Excellence Scholarship**, MSU Honors College 2023
- 3rd Place Worldwide** – TikTok Tech Jam (MoodMelody.AI, \$3,000 Prize) 2024
- Global Top 8** – AnitaB.org Responsible AI Hackathon 2024
- Best Cybersecurity Hack** – MHacks (CrowdSecure) 2023
- Honorable Mention** – ShellHacks, AI in Accessibility Track (IncluScript.ai) 2023
- Google Cloud Digital Leader Certification** 2023
- Honors Excellence Scholarship**, Michigan State University 2022–2026
- The Diana Award** – Global Recognition for Philanthropic Project *Gift of Sight* 2020
